Social Crafting Garage

Social Crafting Garage is a workshop set-up in a confiscated asset in Saranda, where women and girls - victims or at risk from the organized crime and domestic violence, make handicrafts using natural stones from the beach (colourful, one colour, flat, rock, glassy, etc.). The stones are painted, drilled, carved and wired, creating various handicraft products ready for the market.

The stone designs are linked to the cultural heritage and folklore genre making these products unique, valuable and competitive in the artisan market, providing long-term income generation.

Giving a new face to the confiscated asset, the enterprise sends the strong message on the value that the social re-use of such assets has in supporting social inclusion and economy of the local communities.
